

## **POSITION AS A BUSINESS ANALYST**

### **WHO WE ARE AND WHAT WE ARE LOOKING FOR?**

Founded in 2008, ALPHA NETWORKS has become one of the fastest growing software companies, providing Pay TV solutions. ALPHA NETWORKS empowers the innovation, accelerates the projects go-to-market, and enhances the next generation TV-entertainment business. Serving customers all over the world, our product development team and engineers continue to develop new technologies that will engage, connect and transform the way people watch TV.

Headquartered in Belgium, with sales representatives in Europe, Asia, and South America, the company is internationally recognized. Working with major Telecom and Media companies such as Orange, Ecomet, Telecentro, ALPHA NETWORKS excels in carrier grade deployments and customer support.

Alpha Networks is looking for a business analyst to join the Product & Marketing business unit. In this team, the Business Analyst will be responsible to define the functional specification of a customer project, in close collaboration with the Pre-Sales, Product and the Developers teams. He/She will also directly interact with the Customers.

### **MORE SPECIFICALLY, THE BUSINESS ANALYST WILL HAVE THE FOLLOWING KEY RESPONSIBILITIES:**

Provides professional support to marketing & product function in defined responsibility area. In the scope of an internal or external project related to company software development, the Business Analyst ensures the correct understanding and coherence of business and configurational specifications with internal teams and within the customer project.

The Business Analyst will be responsible:

- Collaborate with the customer to understand and evaluate the business requirements.
- Translate the business requirements into User Stories, making sure that the solution proposed to be implemented meets customer requirements and it is aligned with the company strategy.
- Provide support to QA and R&D teams to make sure the needs have been well understood.
- Prepare demos before the UAT (User Acceptance Tests) and check with the customer if the implementation matches the needs.
- Provide support to the product team

### **EDUCATION, SPECIFIC TRAINING AND EXPERIENCE**

- Bachelor or Master degree in Business or IT
- Specific studies/certificates in Business Analysis or relevant experience is a plus
- Knowledge of Agile methodology
- Fluent in English and French (written & spoken)
- Strong analytical and communication skills

## **LANGUAGES, KNOWLEDGE, SKILLS & COMPETENCIES**

Fluent (written and spoken) in French and English

Good knowledge of:

- Jira
- Axure and/or Balsamiq
- LucidChart
- Modelling language: UML, BPMN

## **OFFER DETAILS**

Competitive salary depending on skills level and prior work experience.

Collective benefits: transport allowance, group insurance, hospital insurance (full DKV) and meal vouchers.
